Group 3   Date: 02/24/2023   Time: 10 am   Duration: 30 Minutes

Present, on time: Mike Squires, Alex Escatel, Daniel Alzeidan, Hamza Ali

Present, not on time: None

Absent: None

Synopsis:

In this meeting we discussed how the presentation was going to go and who would start off. We also discussed what we want to cover in the next release

Recent Individual Accomplishments:

Mike - Tested demo on computer and made sure login and scene switching was smooth

Alex - Test cases for mock data and dynamic waypoint creation

Dan - Finished creating multiple markers for demo and made sure map page and markers were working before demo

Hamza - Finish collect the data from the Arduino and send the data to firebase real time database

Current Individual Activities:

Mike - Working on scenario 2

Alex - Working on scenario 2

Dan - Working on scenario 2

Hamza - Working on scenario 2

Individual Action Items:

Mike - Finish scenario 2 and get started on whatever tasks are created for that scenario

Alex - Finish scenario 2 and get started on whatever tasks are created for that scenario

Dan - Finish scenario 2 and get started on whatever tasks are created for that scenario

Hamza - Finish scenario 2 and get started on whatever tasks are created for that scenario
